PVC PERGOLA SYSTEM

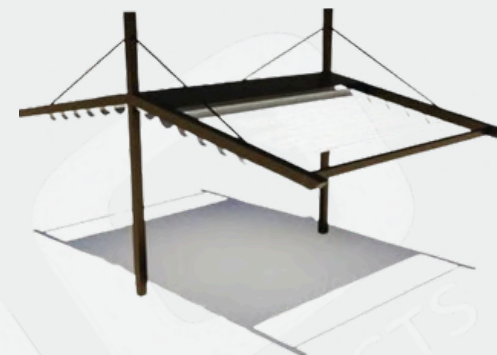

General Features

Aluminum pergolas are made from aluminum metal, which is resistant to rust and corrosion. This makes aluminum an excellent choice for outdoor applications.

Aluminum is known for its longevity. You don't have to deal with problems like rusting, shrinking, or rotting, which makes it suitable for various weather conditions such as rain and snow.

Overall, aluminum pergolas are a practical and aesthetically appealing option for many homeowners looking to enhance the appearance and safety of their outdoor spaces. They offer a balance between durability, low maintenance, and design flexibility.

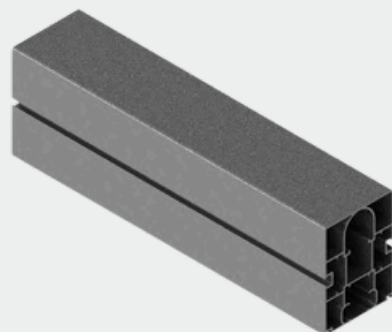

All the colors you choose according to the RAL color standard can be applied.

It is extremely resistant to weather conditions such as rain and wind.
